horizon

location corner of warrs road & van ness avenue, maribyrnong

value \$30 million

status completed

The design for this residential development presented a challenge being situated on an old quarry, to take advantage of the magnificent Maribyrnong River Valley views, it was designed on a steeply sloping site.

The final form of the Horizon development evolved from a confluence of ideas involving local residents and the developer, urban designers, landscape architects and engineers. These concerns, constraints and design principles were employed to provide the final solution. Horizon comprises a 47-unit apartment building and 82 walk-up residential units set in a landscaped environment organically sited to capture the best views afforded by the location.
